About us

Company Profile

Hadong Engine

Henan Hadong Energy saving Technology Co., Ltd., Specializes in the independent research, design, and production of auto engine assemblies, cylinder head assemblies, cylinder block assemblies, and other automotive components for passenger vehicles. Our products are widely used in micro vehicles, light trucks, and sedans among various gasoline vehicle models.

With two modern production bases located in Zhengzhou and Chongqing, covering a total area of 15,000 square meters, our company employs over 200 staff. We have the capability to produce components for over 300 vehicle models, with an annual production capacity of more than 100,000 units of automotive engines, ensuring high-quality products for our international clients.

Hadong Energy-saving company products cover series of joint venture vehicles such as Volkswagen, Hyundai, Mitsubishi, GM, Toyota, and Daewoo, and also achieve full coverage of mainstream domestic models such as BYD, Chery, Changan, Great Wall, JAC, Dongfeng Xiaokang, SAIC-GM-Wuling, DAE etc. Its products have been successfully exported to more than 50 countries in the Middle East, South America, Central Asia, Russia, Africa, Europe, and Southeast Asia, receiving high recognition from customers at home and abroad.

Product Advantage

Product Advantage

- Multiple process inspections
- Multi model engine production line
- Cold and hot running test
- Scale manufacturing
- Complete models and customized packaging
- One machine, one code, product traceability

4

After Sales Service

Technical support

- one year warranty
- Professional team provides solutions

Rapid response

- Provide 7x24 hours technical support services
- Multiple service outlets nationwide
- professional engineers to provide solutions

Thanks!
